

FISHING REPORT

Reporting Period: December 27, 2022 to February 25, 2023.

Note: Missing dates normally mean that the wind contributed to boats not going out to fish.

I have a NEW email, if you can send me any fishing news or pictures: lyncurt0@gmail.com

12 /27/2022 CAP'N JACK fished Colorado Risco in perfect weather for big Sandies, Goldies, and Suegra (Mother-in-laws). Also a large odd ball that looked like a Suegra-Cabrilla Pagoso hybrid (see below). Maybe mimicry adaptation as "Warning Coloration". Indeed, there is a venomous sea snake in the Sea of Cortez that has a bright yellow, black and white striped pattern and will twist itself into a looping knot. That produces a color pattern similar to the inner lining of the mouth of this fish. Interesting but the water is pretty cold out there for them right now. If interested in more info on the Yellow Bellied Sea Snake, go to:<https://mexican-fish.com/yellow-bellied-sea-snake/>.

12/28/2022 EL SUENO Bottom fishing in Turner-Cross roads for Goldies of all sizes

1/28/2023 (approximate) ESCAPE was out in late January and sent these reports:

1. Trolling San Esteban for nice Sardinera (Brownies/leopard grouper) but saw no sign of Yellowtail.
2. . At Pedro Matir caught really nice Yellowtail in 20+ pound range until the wind came up.

2/01/2023 EL SUENO fished in the Turner area for Goldies of mixed size, bottom fishing.

2/01/2023 EL SUENO had a good day for nice Goldies, groupers and other bottom fish.

2/05/2023 CAP'N JACK fished in deep water south of Turner for Goldies and Grouper, including a nice "Starry Grouper" (see photo).

2/06/2023 EL SUENO went to the Turner South area for Goldies on one trip and big Goldies, three grouper and Salmon on another.

2/13/2023 CAP'N JACK explored south of Turner towards Pedro Matir for big Goldies, some nice grouper, and two Swell Sharks (see photos below). The sharks were released.

2/18/2023 CAP'N JACK checking south of Turner but was slow fishing for one grouper, sea snakes and Scorpion fish. Nice day but strong currents.

FORPLAY had a good day at Deep Reef for limits of Goldies.

SAND DOLLAR fished for a short day south of Turner for a mix of Goldies, Sandies, and Salmon.

SEA DANCER fished south of Turner and found no Yellowtail but caught some Goldies, grouper, a couple of sharks and lots of Scorpi fish. They eventually moved to north of Colorado Risco and found a nice catch of decent Suegra/ Mother-in-Law.

2/19/2023. SAND DOLLAR fished in deep water from Eagle's Nest to just past Willard Point, and found no grouper but a good catch of big Goldies.

Yellowtail continue to remain mysteriously absent everywhere in recent weeks. Water temperatures have been below 60 degrees F just about everywhere and as low as 52.
